

Career Guidance Session (XI & XII)

By

Mrs. Jyotsna Bhardwaj

(24th April, 2021)

Session Highlights

- The focus of the session was to make students work on their strengths to choose their subject combinations wisely and with more awareness on the same.
- This would enable the students to have a more pragmatic and comprehensive approach to career making ahead exploring themselves in a better way.
- The students were guided to a rainbow of new age careers like – Cryptography, Animation & gaming, Artificial Intelligence, Ethno – botany, Waste management, Forensic science, Space and remote Sensing, etc... as the pandemic has completely changes our lives and our outlook to choose and follow various careers that were not thought off before.

- The students were also guided through a Career Development Cycle that would enable them to polish their best potential and consider awareness, skills, personality and attitude as the 4 pillars of their strong foundation of career success.
- They were also introduced to the GROW (Goals, Reality, Opportunity and Will) concept to ease their career graph towards more realistic and determined future prospects with their choices concerned.
- The audience was encouraged to strike a balance between the parent's aspirations and the learner's wishes to create a fulfilling and firm career. The session encapsulated the need for a psychologically and financially gratifying career as it leads to all other strengths and virtues essential for a happy and successful life ahead.
